

## Remarks

Claims 1-14 and 15, 16, 18, and 19 are now pending in this application. The Examiner has allowed claims 1-14 and 16-19. Applicants have amended claims 1, 3-5, and 10-12 and cancelled claim 17 to clarify the claimed invention. Applicants respectfully request favorable reconsideration of this application.

Applicants have amended the title that more accurately reflects the claimed invention.

The Examiner objected to the drawings under 37 C.F.R. § 1.83(a) as not showing the network recited in claim 16. The Examiner objected to the specification as not describing the network recited in claim 16. Applicants submit herewith two sheets of corrected drawings including Figs. 1-4. Applicants have amended Figs. 1 and 3 to show the network recited in claim 16 and as described in the specification. Applicants submit that the corrected drawings do not constitute new matter. Applicants respectfully request withdrawal of the objection to the drawings and specification.

The Examiner objected to claims 4 and 10. Applicants have amended claim 4 to clarify the claimed invention and the values in the formula recited therein. Applicants have amended claim 10 along the lines suggested by the Examiner. Accordingly, Applicants respectfully request withdrawal of the objection to claims 4 and 10.

Applicants have amended claims 1, 3, 5, 11, and 12 to address minor informalities. Some

of the amendments to claim 1 to clarify, for example, the fields and coils referred to therein, were necessitated by the amendments to claim 10.

Applicants submit that this case is now in condition for allowance and respectfully request favorable reconsideration of this application and issuance of the notice of allowance.

The undersigned authorizes the Commissioner to charge fee insufficiency and credit overpayment associated with this communication to Deposit Account No. 22-0261.

Respectfully submitted,

Date: May 18, 2009
